Here we go again. Another lumpy love seat supporter. First off it was 2016, second I never told them my true background then. As Ryan White I was an ordained minister. I followed a calling I had my entire life.
The fact that I had to do it under Ryan White I didn't like but I had

no choice.
My background is accurate I've never exaggerated but I did hide it for a long time. Lumpy claims to have vetted me fully through all of his sources and yet never found my real name or background.

Lumpy is not only a huge Paytriot, he is a stolen valor, wanna be, chomo, POS. All of this is coming out now and people are distancing themselves from him because of it. So he's going to attack as much as he possibly can.
I have said or claimed nothing that I can't back up.

Did they really think I was going to step out of the shadows and save those amateurs and then tell them every single thing about myself? Look at the trouble they got themselves into when I saved their life.
As for Mr Ty clevenger. I have held professional licenses for years until

They were taken away by corrupt doj employees. All documented and sealed in different court cases. Ty clevenger on the other hand has lost his law license in three different states at least for "ethics" violations.

It is lumpy's unbelievable arrogance that he thinks he's entitled to know everything about everyone. But you can't ask a single question about him without being attacked or blocked. All of my records are there they are just in tatters because of the doj.

Lumpy runs his mouth hoping no one realizes that the great big case they constantly get donations for and brag about, representing Ed buttowski, was deliberately started by his betrayal of Ed's trust. And they have abused and scammed money from Ed for years because of it.

After what the doj did I had only the life I could live as Ryan White so I did what I could and helped others as a minister, I still do. I wish I could do more and I hope I can in the future. But I never stopped. I worked with what little I had available.

Bottom line is Lumpy and his group are not entitled to know anything about me so I didn't tell them. They're amateur detective work had them in the sights to be killed and I save their life they have admitted this publicly. So why would any sane person tell them anything private?

Lumpy has exposed everyone who trusted him with information for his own private gain and publicity. Every single person, he has doxed me and put myself and my family in danger. Giving him personal information would have only made things worse.

I didn't exaggerate or distort anything, I gave him my correct story as Ryan White the life I was forced to live under. I have had many attorneys and federal judges look at the charges that were against me and they are completely fabricated and it's very obvious

I have other federal agents including local law enforcement corroborating all of this and backing me up. I would

Lumpy likes to ingratiate himself to true Patriots and use those connections for his own benefit, financial or professional. There's a very serious reason coming out and why these actual Patriots are distancing themselves from Lumpy. And he is attacking and trying to get in front

Of the story. All I have ever presented was evidence as I had personally witnessed or had it related to me. But he's the expert right? For $50 donation and if you buy a t-shirt he'll be an expert on anything. He's never even met these people, and my name is all over the court

Records connected to them but he's the expert 🙄
Lumpy attacks and blocks if you ask a simple questions about anything that he doesn't like. Ask him where all the money went? Donations for various cases including SR. Well he took that money and took his wife to Vegas for 10 days

Took donations that people had given him to find the truth and lived it up big. He still does. Takes your donations and donates it to other candidates that you don't even know about or support probably. He's supporting candidates and other states that Trump doesn't support.

All he wants is to be connected to a candidate then feel legitimate. He'll move to that state immediately and live it Up. He is an anti-trumper and involved in many things that people are not aware of but they will be soon.

Lumpy regurgitates news that you've already heard from multiple sources and begs for money constantly. I put up information as I get it that I know about or has been shared with me. That's all. I have always asked you to make up your own minds about it.

If lumpy and crew think they have me over a barrel because of my background? They're in for a huge surprise. They don't measure up. Not even close.
So they can talk tough, have their group attack me. Let's go to court gents. You want to do it for real?
I can back up all my stuff

Lumpy is already under investigation with others for connection to child trafficking. He's a chomo POS and his wife left for a reason. Just because he used his newfound connections to keep custody, that is a crime itself.
Dig around you'll find it. Chomo, racist, Trump hater,

And much more. And it's all coming out. Attack me all you want I don't lose a second sleep because I can prove everything I've said. You have nasty little skeletons in your closet and they're all going to come out now Lumpy. I'll be the last man standing 👍👍

Here's a new diagnosis for Lumpy,
Stolen valor by proxy.
He has gotten close to many genuine Patriots and people of true honor, everyone knows who they are. And he uses that until they find out and distance himself and then he attacks them. He hates Trump and he will bring down

All of President Trump's support that he can. The people that he is swindled and ingratiated himself too are going to be smeared because of their proximity to him. And that is horrible and undeserved.
